- MySQL
- AJAX
- HTML
- CSS

To secure a responsible and challenging position in the industry, leveraging my technical skills and dedication to contribute to the growth of the organization while fostering a collaborative and innovative work environment.

PROFESSIONAL EXPERIENCE

Laravel Developer
July 2024 – Present
ISKCON, Bangalore

- **Book-Marathon Project:** Spearheading the development of a comprehensive book-selling application designed to streamline the online purchasing process. My role involves leveraging a broad array of technologies including Laravel, JavaScript, Ajax, JQuery, Bootstrap, and HTML/CSS to deliver a high-quality, responsive web application.
- **API Development:** Designing and implementing robust APIs to facilitate seamless interaction between the front-end and back-end components of the application. This includes creating RESTful endpoints to handle various functionalities such as user authentication, product management, and order processing.
- **Continuous Improvement:** Staying updated with the latest industry trends and best practices in web development to continuously improve the application's performance and incorporate new features and functionalities.

Web Developer
June 2023 – June 2024
FixingDots, Raipur

- **Developed and Maintained FixHR Project:** Led the development of FixHR, an HR Management TADA module designed to streamline HR processes. Utilized technologies including Laravel for backend, JavaScript and AJAX for dynamic functionalities, jQuery for DOM manipulation, and Bootstrap for responsive design. Employed HTML and CSS to create an intuitive and visually appealing user interface.
- **API Development:** Designed and implemented robust APIs to support various functionalities within the FixHR application. This included creating RESTful endpoints to handle data exchange between the front end and back end, ensuring seamless integration and efficient data handling.
